AEROSPACE SMART FACTORY

**SEPTEMBER 21-23, 2021
TOULOUSE, FRANCE**

**Business Convention
dedicated to the Smart Factory
for the Aerospace Industry**

Organized by

 **BCI AEROSPACE**

Co-located with

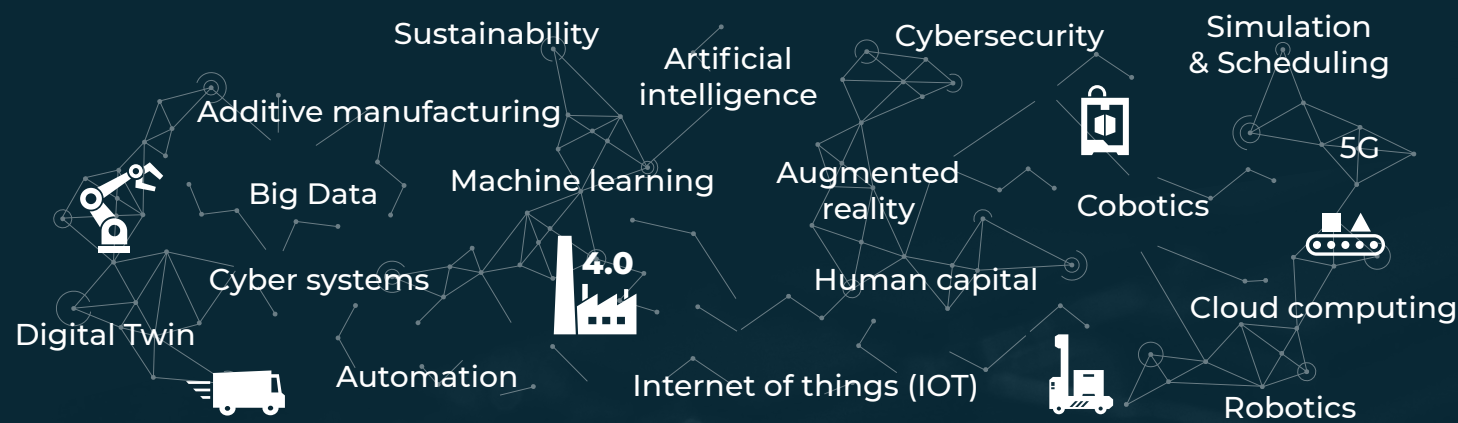

Explore. Learn. Share.

Aerospace Smart Factory is the new event exploring breakthrough technologies in Industry 4.0. Learn from world-class manufacturing and technology experts about the economical, technological, environmental, organizational, and human challenges that are at the heart of digital transformation in the aerospace sector.

Discover best practices to implement change across your organization and remain relevant in a changing ecosystem.

Get personalized advice by visiting the expo zone and meeting with a curated selection of solution providers.
