Amaia Alberdi

Head of Manufacturing Processes Group

Graduated in Mechanical Engineering with a diploma in Materials Science and Technology in June 2008 in the University of Navarre. She held a PhD in Mechanical Engineering from the University of the Basque Country UPV-EHU in 2014. In 2008, she joined Tecnalia's Industry and Transport Division as a researcher in advanced manufacturing processes (Waterjet, Additive Manufacturing, Machining, etc.). She has participated in several European projects and research regional projects, and recently she led the PARADISE European project related to hybrid technology (machining + LMD). She is the author of several published indexed articles related to the laser injection process (LMD) and waterjet. Since 2019, she is responsible for projects related to LMD technology and the head of the group of manufacturing processes in TECNALIA.
