

The logo for the Aerospace Additive Manufacturing Summit. It features a stylized red and white 'A' with a rocket trail, followed by the text 'AEROSPACE ADDITIVE MANUFACTURING SUMMIT' in a bold, sans-serif font.

AEROSPACE ADDITIVE MANUFACTURING SUMMIT

Raphael Salapete

Project Leader for Additive Manufacturing in R&T

For the past 15 years, Raphael Salapete has been working in the material field applied to rocket engine cryogenic propulsion in Vernon. After being a R&D material engineer, he has contributed in Technical Directorate to the emergence of additive manufacturing on space rocket engine products since 2011. He is the project leader for additive manufacturing in R&T for ArianeGroup since 2016 and inside the Metallic Lab, he is actively participating to the definition and implementation of additive manufacturing strategy of ArianeGroup. From 2018 he is also head of a German-French team dedicated to ALM R&D on material & processes.
