Dr. Martin Dopler

Co-founder and Technical Director

Dr. Martin Dopler studied process engineering at the University of Technology in Graz (Austria). He finished his PhD thesis in industrial environmental engineering at the University of Leoben (Austria) about the topic of "Prediction of Particle Sizes of Gas Atomized Metal Powders". Since 2015, he has been CTO of HTM - hightech metal ProzessentwicklungsgesellschaftmbH (a developer of powder production processes), which is now completely under Metalpine GmbH (a producer of high-quality spherical metal powders), where he has been co-founder and technical director since 2019. He now has more than 20 years of experience in the development and optimisation of metal powder production processes.
